ENDURO METALS CORPORATION

Notes to the Condensed Interim Consolidated Financial Statements

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

For the Three Months Ended December 31, 2025

1. NATURE AND CONTINUANCE OF OPERATIONS

Enduro Metals Corporation (the “Company”) was incorporated under the Business Corporations Act (British Columbia) on July 20, 2009 and is publicly listed and traded on the TSX Venture Exchange (“TSX-V”) under the symbol ENDR and on the OTC Markets Group Inc under the ticker symbol “ENDMF”, and the Frankfurt Stock Exchange (“FSE”) under the ticker symbol “SOG0”. The Company is currently engaged in the identification, acquisition and exploration of precious metal resources in Canada. The Company’s head office and principal place of business is suite 1100-1111 Melville St, Vancouver BC V6E 2V6.

The continued operations of the Company are dependent on its ability to develop a sufficient financing plan, receiving the continued financial support from related parties, completing sufficient equity financings or generating profitable operations in the future. The Company has not generated revenue from operations, has an accumulated deficit of \$36,565,907 as at December 31, 2025 and expects to incur further losses in the exploration and evaluation of its mineral properties. These conditions indicate the existence of a material uncertainty which may cast significant doubt on the Company’s ability to continue as a going concern. These condensed interim consolidated financial statements do not include any adjustments to the amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue its business. Such adjustments could be material.

These condensed interim consolidated financial statements have been prepared in accordance with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The operations of the Company are primarily funded from financing activities and the issuance of capital stock.

2. MATERIAL ACCOUNTING POLICIES

Statement of Compliance

These unaudited interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 – Interim Financial Reporting under IFRS Accounting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”). These condensed interim consolidated financial statements follow the same accounting policies and methods of application as the most recent annual consolidated financial statements of the Company.

These condensed interim consolidated financial statements do not contain all of the information required for full annual financial statements. Accordingly, these unaudited condensed interim consolidated financial statements should be read in conjunction with the Company’s September 30, 2025, annual consolidated financial statements, which were prepared in accordance with IFRS as issued by the IASB. These unaudited condensed interim consolidated financial statements are expressed in Canadian dollars and have been prepared on a historical cost basis except for financial instruments that have been measured at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting on a going concern basis. The accounting policies set out below have been applied consistently to all periods presented in these condensed interim consolidated financial statements as if the policies have always been in effect

Basis of Presentation

The policies applied in the condensed interim consolidated financial statements are presented below as of March 02, 2026, the date the Board of Directors approved the condensed interim consolidated financial statements.

The condensed interim consolidated financial statements have been prepared on a historical cost basis except for certain financial assets measured at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These condensed interim consolidated financial statements include the accounts of the Company's wholly owned dormant subsidiaries. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. All significant inter-company transactions and balances have been eliminated upon consolidation.

Critical Estimates, Judgments and Assumptions

The Company's management makes judgments in its process of applying the Company's accounting policies to the preparation of its consolidated financial statements. In addition, the preparation of financial data requires that the Company's management make assumptions and estimates of the impacts on the carrying amounts of the Company's assets and liabilities at the end of the reporting period from uncertain future events and on the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting impacts on the carrying amounts of the Company's assets and liabilities are accounted for prospectively.

Future Accounting Pronouncements

In April 2024, the IASB issued IFRS 18, *Presentation and Disclosure in Financial Statements*. Key changes would impact the structure of the condensed interim consolidated statements of loss and comprehensive loss and amendments to requirements for certain profit or loss performance measures. IFRS 18 will replace IAS 1, *Presentation of Financial Statements* effective for reporting periods beginning on or after January 1, 2027 and will also impact comparative information at the point of adoption. Management is currently assessing the effect of the standard on the Company's condensed interim consolidated financial statements.

3. ACQUISITION OF COMMANDER RESOURCES LTD.

On May 30, 2025, the Company completed the acquisition of Commander Resources Ltd. (“Commander”) pursuant to a court-approved Plan of Arrangement. The Plan of Arrangement was implemented pursuant to the terms and conditions of an arrangement agreement dated February 25, 2025 between Enduro and Commander, and has resulted in the acquisition by Enduro of all of the issued and outstanding shares of Commander (the “Commander Shares”) in exchange for consideration of 0.535 of a common share of Enduro (each full share, a “Enduro Share”) for each Commander Share (the “Exchange Ratio”). In connection with the Plan of Arrangement, Robert Cameron and Brandon MacDonald each joined the board of directors of Enduro and Lawrence Roulston resigned as a director of Enduro.

In connection with the closing, a total of 23,692,393 Enduro Shares were issued to the former holders of Commander, resulting in former Commander shareholders holding approximately 45.65% of the total number of issued and outstanding Enduro Shares (based on 51,885,012 Enduro Shares issued and outstanding immediately after closing). In addition, the outstanding options to purchase Commander Shares have been replaced with options to purchase Enduro Shares on the same terms and conditions (“Replacement Options”), other than necessary adjustments to take into account the Exchange Ratio, as set out in the Plan of Arrangement.

The transaction does not constitute a business combination, as Commander does not meet the definition of a business under IFRS 3 – Business Combinations. As a result, the acquisition of Commander has been accounted for as an asset acquisition, whereby all of the assets acquired and liabilities assumed are recorded at fair value reflecting purchase consideration. Upon closing of the transaction, Commander and its subsidiaries became wholly-owned subsidiaries of the Company. The net assets acquired pursuant to the acquisition were as follows:

* Fair value of the Company’s shares was calculated using the closing price of \$0.16 on the date of issuance.

- Expected life: 1.30 years
- Stock price volatility: 87.87%
- Discount rate: 2.58%.
